

Heimdall Power

Quality Policy

As a professional organization delivering products and services to critical infrastructure, quality is the core of all business activities at Heimdall Power. Heimdall Power aims to be a market leader in the power grid digitalization, and is committed to provide reliable products and best services to our customers.

We establish our Quality Management System as per the ISO 9001 requirements and best practices.

We work closely with our contractors, suppliers and partners to ensure quality delivery of their services.

We are committed to comply with regulations, legislations and codes of practice relevant to the industry in which we operate.

We set up meaningful quality objectives and ensure all personnel understanding and contributing to the achievement of the objectives.

All personnel within Heimdall Power are responsible for the quality of their work. We attract talent, build competence and prompt a healthy and friendly work environment to motivate our staff and maximize their contribution to the quality of our products and services.

We strive to continuously improve our products, services and processes, and encourage our personnel to contribute to continuous improvement.

Jørgen Festervoll, CEO, 17.02.2023
